

# Exercises

- **The Invoice application uses a while loop and if statements.**  
([http://jackmyers.info/java/murach/InvoiceApp\\_ch02.java](http://jackmyers.info/java/murach/InvoiceApp_ch02.java))
  - Create a project for this in Eclipse and answer the questions in Exercise 2-1 (pg. 75)
  - Modify the application as described in Exercise 2-3 (pg. 75)
  - Read about how to format the data on pages 100.
  - Examine the code changes on page 101 and make similar changes to your program.
  - Test the program as described in Exercise 3-1 (pg. 109)
  - Starting with [http://jackmyers.info/java/murach/InvoiceApp\\_ch04.java](http://jackmyers.info/java/murach/InvoiceApp_ch04.java), implement the enhancements from Exercise 4-2 (pg. 143)
- **The Test Score application also uses a while loop and if statements.**  
([http://jackmyers.info/java/murach/TestScoreApp\\_ch03.java](http://jackmyers.info/java/murach/TestScoreApp_ch03.java))
  - Modify the application as described in Exercise 3-2 (pg. 109)
  - Modify it again as described in Exercise 4-3 (pg. 109)
